

2nd Annual **WASTE TO ENERGY** FINANCE & INVESTMENT SUMMIT

Converting Municipal Solid Waste to Power, Steam and Fuels

The
Pre-Summit
Technology Briefing

July 19-21, 2010 | Hilton Del Mar | San Diego, CA

July 19, 2010 | 8:30 am – 5:15 pm

As a prelude to the *Waste to Energy Finance & Investment Summit*, the **Technology Briefing** will provide insight into the latest offerings spanning the spectrum of the industry and how these technologies contribute to project success. Speakers will participate in a combined presentation and roundtable discussion format. Attendees will gain the latest intelligence on the state of technology impacting the industry while directly interacting with the participants.

- What unique attributes does the individual technology offer?
- Is the technology commercial ready?
- If the technology is continually being developed, are additional venture dollars being sought?
- What types of partnerships or joint ventures are being considered?
- What project types or challenges are the technologies designed to meet?
- How is the technology pursuing or benefiting from government support?
