

Strategic Opportunities in Water Technologies

MEET KEY DECISION-MAKERS FROM THE HOTTEST
WATER TECHNOLOGY END-USE MARKETS

February 3-5, 2010 | San Francisco, CA

Supporting Sponsors:

Pre-Summit Technology Showcase

WATER TECHNOLOGY INNOVATION SHOWCASE

Wednesday, February 3, 2010

- 8:00-8:30 *Keynote:*
Water Management and Information Technology
Peter Williams, IBM Distinguished Engineer, Chief Technology Officer,
Big Green Innovations, IBM
- 8:30-10:00 **Advanced Water Purification Technologies**
- Presenters:*
Patrick Horner, Engineering Team Leader, AquaPure
John MacHarg, President, Ocean Pacific Technologies
Michael Motherway, President, DXV Water Technologies
David Nicholas, CEO, VRTX Technologies
- 10:00-10:15 Networking Break
- 10:15-12:00 **Advanced Water Purification Technologies, Continued**

Presenters:

Mark Owen, CEO, Puralytics

Dr. Fatemeh Shirazi, President & CEO, Microvi Biotech Inc.

Dileep Agnihotri, Ph.D., Advanced Hydro

Senior Representative, Golder Associates (Tentative)

12:00-1:30 Group Luncheon

1:30-2:45 *Panel Discussion:*

What Are the Most Exciting Avenues of Innovation in Water Management and Treatment Technology?

Membrane technologies, radiation treatment, biofilters, microbial fuel cells, ultra/micro-filtration, nanoporous materials – the amount of technical innovation applicable to water management and treatment challenges is both daunting and exciting. This panel of R&D leaders, CTOs and venture capitalists will offer their views on what approaches they find most promising, how the companies with such technologies are being valued, and where the opportunities are for further innovation and/or commercialization.

Moderator:

Paul O'Callaghan, CEO, O2 Environmental Inc.

Panelists:

Adam Bergman, Senior Vice President, CleanTech Investment Banking, Jefferies & Company, Inc.

William Brennan, President & Managing Director, Brennan Investment Partners (Tentative)

Val S. Frenkel, Ph.D. PE, D.WRE, Director, Membrane Technologies, Kennedy / Jenks Consultants

Sally C. Gutierrez, Director, National Risk Management, Research Laboratory, U.S. EPA, Office of Research and Development (ORD)

Laura Shenkar, Principal, The Artemis Project

2:45-3:15 Networking break

3:15-4:00 **Innovative Analytical Devices:
Utilizing Light Emitting Bacteria as Sensitive Sensors for Rapid and Automatic Detection of Contamination Events in Water**

Presenter:

Dr. Nirit Ulitzur, Founder and Chief Technology Officer, Checklight

4:00-5:30 **Waste to Energy Technologies**

Presenters:

Angella Hughes, President & CEO, Xogen Technologies Inc.

Eytan Levy, CEO, Emefcy

Seth Terry, VP Commercial Development, Oberon FMR, Inc.

5:30 Technology Showcase Adjourns
